Dear Representative Sessions:

I am writing to urge your support for H.R. 1 the Tax Cuts and Jobs Act. It is an important step in securing meaningful tax reform that strengthens the U.S. economy.

The U.S. tax code has not had a comprehensive update since 1986. Our company, the economy and the international playing field have all changed dramatically in the past three decades.

The U.S. tax system is uncompetitive and penalizes multinational companies. Congress now has a unique opportunity to lower rates, create a modern international system while maintaining the important research and development tax credit. H.R. 1 will encourage economic growth, investment and create the industries and jobs of the future.

I appreciate your consideration.

Sincerely,
